

## **KEM PRO**

Kem Pro is a bio-stimulant and extract-based liquid Bio Stimulator along with organic nutrients for stimulating growth and gives immunity to crops/plants by activating hidden internal defines mechanisms of plants. Kem pro is a bio-stimulant and is made by combining seaweed extracts, amino, humic acids, vitamins, and antioxidants. Kem pro is an advanced technology-based bio formulation developed in such a way that the absorption and adsorption time is very short and provides ultimate results within a short period of time. Kem pro is an all-around bioproduct that provides all the necessary nutrients in a balanced form and gives a boost in growth and also gives immunity.

### **Recommended Crops:**

Can be applied on a wide range of vegetables, fruits, and cereal crops as well.

### **Application Rate:**

2ml to 2.5ml per litre of water

### **Pack Sizes:**

1Ltr, 2Ltr, 5Ltr, 10Ltr, 20Ltr and 50Ltr

### **Application method:**

Kem pro can be diluted with water and then the diluted solution can be sprayed in the field by any spray equipment and drip irrigation as well.

**Foliar Spray:** Mix the recommended dose of Kem pro in water, which is required/sufficient to cover the recommended area of crops, and then the diluted solution can be sprayed directly by any spray equipment available with the farmer using standard farmer practices.
