

### **VANSIL (ORTHOSILICIC ACID 12%)**

- An innovative product powered by new technology with the highest percentage of Ortho Silicic Acid which works very effectively on building resistance power against diseases.
- VANSIL supplies essential silica in the form of Ortho Silicic Acid, which is readily available for the plant.
- Is water-soluble Ortho Silicic Acid which is easily absorbed by the plant.
- Imparts resistance to diseases and insects.
- It prevents lodging by strengthening the plant
- Helps to reduce water loss and transpiration
- Also enhances the plant's ability to resist or tolerate biotic stress such as the attack of insect pests and fungal attacks.
- Recommended to spray along with insecticide/fungicide to increase their performance.
